

THE SUGAR MARKET.

Extracts from Williams, Dimond & Co.'s Circular.

SAN FRANCISCO, Aug. 31.—There has been a good demand in our local sugar market during the month, and jobbers have purchased freely of late in anticipation of an advance on account of tariff legislation. There have also been some speculative purchases outside of the usual trade.

The Western Sugar Refining Company advanced all grades of refined on August 24th 1/2c per pound, and have made no change since. Quotations today are as follows: Cube, Crushed and Powdered, 5/16c; Dry Granulated, 5/16c; Extra C, 5/16c; Golden C, 5/16c; D Sugar, 4/16c.

Half-barrels are now 1/2c more, instead of 1/4c as formerly. Boxes 1/2c more.

Pieces for export to Honolulu are 1/2c less, or on the basis of 5/16c for granulated.

Basis: We quote the following changes since our last circular:—Aug. 10th, 3.16 (sales, 5000 bags at this figure, and 7500 bags at 3 1/16c). 13th, 3 1/16c (sales, 5500 bags). 14th, 3 1/16c (sales, 2800 bags). 16th, 3 1/16c (sales, 2500 bags at this figure, 2700 bags at 3 1/16c, and 9500 bags at 3 1/16c). 20th, 3 1/16c (sales, 4000 bags). 24th, 3 1/16c (sales, 19,000 tons at this figure, 4500 bags at 3 1/16c, and 1500 bags, 95 test, 3 1/16c). Since the 24th there has been no change reported.

In addition to the sales noted above, there have been others between the dates, but not affecting basis. The above quotations are the basis of the prices in New York, and up to the 16th inst. established the basis for island sugars. Since that date, however, the New York market having ruled in some instances half a cent above the London market, the deduction, according to contract must be made in order to establish the basis for island sugar having arrived on these dates.

Tariff.—After a hard struggle the bill, as passed by the Senate, became a law on the 25th inst., and the sugar schedule is as follows:

All sugars No. 16 Dutch standard in color or under to pay a duty of 40 per cent. ad valorem, and all sugars above No. 16 Dutch standard in color shall pay in addition one-eighth of a cent per pound. Also one-tenth of a cent per pound additional on sugars which are imported from or are the product of any country which at the time the same are exported therefrom, pays directly or indirectly a bounty on the export thereof. It is also further provided that nothing contained in the schedule shall be so construed as to abrogate, or in any manner impair or affect the provisions of the treaty of commercial reciprocity concluded between the United States and the Kingdom of the Hawaiian Islands, on the 30th day of January, 1875, or the provisions of any Act of Congress heretofore passed for the execution of the same.

Eastern and Foreign Markets.—The New York market has ruled active during the month with a gradual advancing tendency as the end of the tariff legislation drew near, and it became more apparent that there would be a duty levied on sugars. The transactions have been very large during the month, and especially towards the end. The magnitude of the dealings was a source of universal comment, but probably less a surprise to those immediately interested than to the outsider.

Such, however, was the natural sequence of existing conditions. There was practically only one source of demand and it was ready and anxious to take every pound it could get possession of under the existing free schedule, and when offers finally reached the level where many holders could realize a good profit, they let the goods go.

Transactions would even have been still larger but for the fact that importers finally commenced to withdraw, and look for higher rates. Transactions in refined have also been large, but the liberal accumulation of stock already in hand served as a check upon a great many operators in this article, who could have taken larger quantities, and are therefore much disappointed.

Refined advanced in New York to 4.69 for granulated on the 23d instant, and 4.81 on the 25th instant; but it is not expected, however, that there will be much more advance in this article at present owing to competition in foreign refined on account of the large reduction of the protection now afforded to refiners in this country.

It is quite possible that raws will not advance at present much over present price of 3 1/16c, duty paid; basis for centrifugals, which is equal to 2 1/16c, cost and freight.

Stock of sugars in the West India Islands is now very small, the usual balance at this season having been transferred to the stock of this country.

The stock remaining in Cuba, according to advices of August 23d, is only 21,000 tons, and rain is reported as wanted for the growing canes.

There is also, practically, no sugar left in the Barbadoes, Martinique, Antigua, St. Kitts, St. Croix and Porto Rico. Prospects for the coming crops in these islands is reported favorable, although rain is needed.

The growing beet crops are also in excellent condition. Our latest telegraphic advices from New York of today quote value of Cuba centrifugals 96 test, ex ship, wharf or store, 3 1/16c. Market active and strong.

Beet crop promises to be larger than last year, and reports from cane crops more favorable. Rain is falling in light showers. Louisiana crop reports are also favorable.

Trust certificates quoted at 106 1/2; common, 97 1/2, preferred.

Rice.—Hawaiian stock light, with demand fair; sales from wharf at 5 1/16c. The largest importer has warehoused his goods, and is asking 5 1/16c, sixty days. The cause of this high figure is a light visible supply for next two months. A fair article, old crop Carolina, can be laid down at 5 1/16c. Fine—G. G., 23.40 per bbl f. o. b.; El Dorado, 22.50 per bbl f. o. b.; Crown, 23.25 per bbl f. o. b.

Bran—Sperry's, 13; G. G. (no more) per ton, f. o. b.
Middlings—Sperry's, 16; G. G. (no more) per ton, f. o. b.
Barley—No. 1 Feed, 8 1/2c per ctl, f. o. b.; ground or rolled, 18.50 per ton, f. o. b.

Oats—Fair, 1.20; choice, 1.30 per ctl, f. o. b.
Wheat—90c per ctl, f. o. b.
Corn—Small, yellow, 1.30 per ctl, f. o. b.

Hay—Comp Wheat, 12.50 per ton f. o. b.; comp Oat, 10.50 per ton, f. o. b.; large bales Wheat, 13 per ton, f. o. b.; large bales Oat, 11 per ton, f. o. b.
Lime—\$1 per bbl, f. o. b.

Charters—Since our last circular wheat has moved freely at lower rates and with some benefit to tonnage, one medium-size, iron having just been closed at 27 1/2 6d orders. 2d 3d direct port. While large carriers have accepted 25s orders, net, and are now asking 26s 3d. The market appears in good position, but our free list is composed of a number of vessels over 2000 tons register.

Lumber freights continue steady at last rates quoted.
Exchange—London, sight, \$4.87 1/2; 60 days, \$4.86; New York, regular, 12 1/2; telegraphic, 15c.

Ladies' Column.

Our QUICK SALES and SMALL PROFIT POLICY is a far better one for the public than the resurrection process known as SPECIAL SALES, GOODS BELOW COST, etc., etc., at which the graves containing goods of times gone by are opened, and the moldering corpses trotted out to make a show.

One never gets SPECIAL VALUE at SALES; one may get LOW PRICES for RESURRECTED GOODS, but special value never. SPECIAL VALUES are only obtained where you get SEASONABLE GOODS where QUICK SALES and SMALL PROFITS are the fundamental principle of the house you are dealing with.

Experience Will Teach You This

If you do not realize it now. Quick sales and small profits mean also no dull counters, no dull goods, but new styles, in fact goods that sell at prices that are just right.

Have you noticed any of those LADIES' SHIRT WAISTS we spoke of last week? If not, you are certainly not very observing, for there has been more of them sold by us last week than was ever sold in Honolulu in any two weeks. QUICK SALES and SMALL PROFITS POLICY did it. Only a few of them left. The same thing might be said of

Carriage Parasols.

We have some HANDSOME UMBRELLAS and PARASOLS.

Twelve yards dress patterns of GENUINE IRISH LINEN LAWN in colors at \$2.50 a pattern.

REMEMBER the place; that if you have any doubts, a call at our store will satisfy you that all we say about QUICK SALE and SMALL PROFITS is a FACT!

20 Miles from a Doctor

But Hood's Sarsaparilla was Equal to the Emergency

Pleurisy, Chills and Fever—Milk Leg—Perfect Cure.

"After my baby was born I got into very serious condition, having pleurisy, chills and fever, gradually developing into milk leg. We live 20 miles from a physician and did not know what to do. Finally after a great deal of suffering I began to take Hood's Sarsaparilla and when I was using the third bottle I could see it was doing me good. I continued with another bottle, and recovered so rapidly that now I am in good health. I cordially recommend it as a good medicine."

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

The attention of Planters and Agents is called to the following letter from Mr. JOHN A. SCOTT, Manager of the Hilo Sugar Co., regarding the working of the National Cane Shredder, which he has just introduced into the Mill of that Company:

WAINAKU, HILO, HAWAII, January 22d, 1894.
HON. Wm. G. IRWIN, Honolulu, H. I.
DEAR SIR:—In reply to yours of the 16th inst. regarding the National Cane Shredder furnished by the Universal Mill Co. of New York, and erected by the Hilo Sugar Co. this past season, I would beg to say, that it has now been in operation day and night during the past three weeks working on plant cane, and also hard ratoon, and it is giving me the greatest satisfaction. The more I see of its capabilities, the better pleased I am that I put it in, as I am satisfied that it will repay the original outlay in a short time, in saving of labor, higher extraction, etc.

It is shredding from 350 to 400 tons of cane every 22 hours with the greatest ease, and it could shred a much larger quantity if necessary. It delivers the shredded cane in an even uniform feed to the three roller mill, which receives it without the intervention of any labor, and as the cane is thoroughly shredded or disintegrated it relieves the mill of a great deal of strain, thus reducing the liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily on the mill, as only one man is required to regulate the amount of cane delivered by the carrier to the shredder. It has increased the extraction from 4 to 5 per cent.

The economical use of steam is generally a serious consideration in adding new machinery, as in most mills the boiler power is taxed to its highest limit, as it was in this mill, and any increased demand necessitated an additional boiler. But I find that the shredder and the three roller mill engines combined use no more steam than the three roller mill engine did when working on whole cane, while doing better work and more of it, and owing to the uniform feed on the mill, the engine demands very little attention.

The Megass from the shredded cane makes superior fuel, and the fire men have less difficulty in maintaining a uniform pressure of steam than formerly.

I will be pleased to have a call from parties interested, as it is necessary to see the machine at work to fully appreciate its capabilities.

I remain, very truly yours,
(Sig.) JOHN A. SCOTT,
Manager Hilo Sugar Co.

Plans for erection of these shredders may be seen at the office of the Agents, where prices and other particulars may also be obtained.
